Title Index 1961*

EARTH SCIENCES

Effects of Typhoon Ophelia on Jaluit Atoll, †January

Seismic Crustal Studies Beneath the Ocean, G. P. Woollard and J. B. Hersey, January

Beach Processes, E. L. Pruitt, June

ARLIS-II: New Arctic Drift Station, L. LeSchack, LTJG, USNR, September

MATERIAL SCIENCES

An Approach to Turbomachinery Research, †March

Thermionic Energy Converters, C. J. Connelly, Jr., LCDR, USN, March

The Ceramics Program of ONR, C. Klingsberg, September

PHYSICAL SCIENCES

High-Energy Particles Tracked by University of Minnesota Scientists, †January

Induction Plasma Torch, J. A. Kessler and R. G. Eldridge, January

Radio Astronomy at Owens Valley Observatory, G. J. Stanley, August

Optical MASERS (LASERS), F. T. Byrne, October

Project Skyhook Churchill 1961, J. A. Wamsley, LCDR, USN, October

MATHEMATICAL SCIENCES

How a Fish Really Swims, †April

BIOLOGICAL SCIENCES

Marine Microbiology, C. H. Oppenheimer, April

Bats That Fish, J. J. G. McCue, May

Blood-Typing of Marine Animals, J. E. Cushing, May

Biology-A Weapon for Peace, R. D. Reid, July

Animal Tracking Gone Modern, S. R. Galler and C. E. Fix, August

Cryobiology, J. F. Saunders, November

PSYCHOLOGICAL SCIENCES

Computer Simulation of Man's Performance, A. I. Seigel, June

AIR PROGRAMS

Research with High-Altitude Balloons, †February

Project Stratoscope - Telescopes in the Sky, J. D. R. Bahng, July

LABORATORIES AND BRANCH OFFICES OF ONR

Surface Chemical Salvage of Water-Damaged Electrical Equipment, †February

A Step Forward in Cathodic Protection, †March

*Articles are arranged chronologically under the ONR division or laboratory having cognizance of the research described.

†Written by the editorial staff of Naval Research Reviews or adapted from anonymous sources.

LABORATORIES AND BRANCH OFFICES OF ONR - (continued)

Radioactive Fission Products in the Lower Atmosphere, L. B. Lockhart, Jr., April
Natural Resources of the Sea, L. S. Kornicker, June
Million-Degree Plasma Physics Lab, † October
NRL Paint Research, D. E. Field, November
Scripps Deep Sea Core Collection, M. C. Sargent and W. R. Riedel, November
Livability in Isolation, S. H. Herzfeld, December
Navy Sniperscope May Help Restore Vision, † December

MISCELLANEOUS

Human Quality Control in Naval Air Training-1960, J. T. Berkshire, January
Mark F. Triga - Reactor for Research, † February
Missile Range Technology Challenges Military Medicine, Capt. C. E. Pruett, MC, USN, and J. N. Shellabarger, February
Hydrodynamic Research with a Porpoise, † March
Tattoos and Personal Adjustment, R. P. Youniss, April
Ice-Phobic Coatings for De-icing Naval Vessels, A. Freiberger and H. Lacks, May
Residual Gamma Radiation in the Vicinity of Nuclear Weapons, C. Sharp Cook, May
Automatic Detection for Radar, J. W. Caspers, July
DTMB Gets Two New Basins, † August
Navy Space Triplets Launched, † August
Psychologic Factors in Space Travel, H. A. Imus, August
Accelerating Cargo Ship Port Turn-Around, R. Delrich, September
Oceanography Aboard the TRITON, M. Smalet, N. Mabry, and G. Wilkes, September
Telemetering Physiological Data, D. D. Smith, LCDR, USNR, October
Oceanography and Food, E. C. LaFond, November
Life-Like Manikins Aid Navy Medicine, † December
The U. S. Naval Weapons Laboratory, † December

Author Index 1961

Bahng, J. D. R., July
Byrne, F. T., October

Caspers, J. W., July
Connelly, C. J., Jr. LCDR, March
Cook, C. Sharp, May
Cushing, J. E., May

Delrich, R., September

Field, D. E., November
Freiberger, A., May

Herzfeld, S. H., December

Imus, H. A., August

Klingsberg, C., September
Kornicker, L. S., June

†Written by the editorial staff of Naval Research Reviews or adapted from anonymous sources.

LaFond, E. C., November
Lacks, H., May
LeSchack, L., LTJG, September
Lockhart, L. B., Jr., April

Mabry, N. (co-author), September
McCue, J. J. G., May

Oppenheimer, C. H., April

Pruett, C. E., CAPT, February
Pruitt, E. L., June

Reid, R. D., July
Riedel, W. R. (co-author), November

Sargent, M. C., November
Saunders, J. F., PhD, November
Seigel, A. I., June
Shellabarger, J. N., February
Smalet, M. (co-author), September
Smith, D. D., LCDR, October
Stanley, G. J., August

Wamsley, J. A., LCDR, October
Wilkes, G. (co-author), September
